WORK EXPERIENCE

Valeo India Private Limited – Data Annotation Specialist / QC Validation

Chennai | Oct 2022 – Present

- Annotated 1,200+ images/day across 2D and 3D AV datasets, maintaining an error rate below 2%, improving dataset reliability for perception models.
- Performed 3D LiDAR point cloud annotation, creating accurate cuboids and segmentation labels used for autonomous parking and object detection systems.
- Conducted QC validation on large-scale datasets (10K+ frames), identifying defects and improving overall data quality by 15–20% through structured checks.
- Collaborated with ML and QA teams to standardize labeling guidelines, reducing rework cycles and boosting delivery efficiency.

EDUCATION

B.Sc. Psychology – Apollo Arts & Science College (2019–2022)

HSC (Pure Science) – J.G Govt Hr Sec School (2018–2019)

CERTIFICATIONS

- MySQL Developer – Besant Technologies
- Power BI – Besant Technologies

PROJECTS

SQL – E-commerce Data Management System

- Built database schema using MySQL with tables, constraints, stored procedures, triggers, and views.
- Automated stock updates, order classification, and customer insights using SQL business logic.
- Created pivot-style analytical queries for category-wise revenue and customer segmentation.
- Improved query performance through indexing and optimized joins.

CV3.5 – 3D Automatic Car Parking & OD Segmentation – Object Detection

- Generated 3D training data using LiDAR segmentation for closed and open parking slot detection.
- Delivered consistent annotations enabling ML teams to improve model precision.
- Performed segmentation for road lines, vehicles, vegetation and validated dataset integrity for AV scene understanding.

SKILLS

- **Databases & SQL:** MySQL, PostgreSQL, Joins, CTEs, Window Functions, Stored Procedures, Triggers, Views, Query Optimization, Mongo DB
- **Data Engineering Skills:** Data Cleaning, Data Quality Checks, Basic ETL Concepts, Dataset Validation, Automation using SQL
- **Annotation & QC:** LiDAR 3D Annotation, Instance Segmentation, Cuboids, Ground Truth Validation, QC Audit
- **Tools:** MS Excel, GitHub, Power BI, MySQL Workbench, VS Code
- **Methods:** Root Cause Analysis, Error Pattern Analysis, Data Accuracy Improvement
- **Soft skills:** Analytical Thinking, Problem Solving, Team Collaboration, Adaptability, Time Management
